Additional information - floral displays

The recommended size for a shop front is 410mm (approx 16"). The baskets can be leased from Plantscape and cost £27.50 (plus VAT) for the summer season. Plantscape will deliver the basket fully planted upon an agreed common date, and will collect them at the end of the season. The planting scheme will be complimentary to those to be erected in public areas by Malton Town Council. Because of the weight of water in the reservoir, the baskets weigh more than a standard basket and fully filled and planted up weigh approximately 15.4 kg. If you have any doubts about the ability to support this weight on any brackets that may be attached to the front of your premises then please contact us and we'll get them checked out. If you don't have a bracket to accommodate a basket, then please let us know and we'll get one (or possibly more) fitted free of charge.

Examples of Plantscape supplied Hanging baskets (black will be specified)

Whilst The Fitzwilliam Estate will be co-ordinating the project you may require further information direct from the company to be used in providing the hanging baskets. The Company name is *Plantscape Ltd*. Their telephone number is 01335 372785, with further information being available from their website www.plantscapeuk.com

Plantscape's full terms and conditions are available on our website.

All of this information will also be available on our website at www.maltonestate.co.uk.
